**Paper M-107 : ADVANCED ICT APPLICATION IN
LIS (PRACTICAL)**

(Admissions of 2009 and onwards)

Time : 3 hours

Maximum Marks : 70

*(Write your Roll No. on the top immediately
on receipt of this question paper.)*

Attempt all questions.

All questions carry equal marks.

1. Design a University Library Website using open source tools, incorporate multimedia and About the Library, Main Information Services hyperlinks options in the Home Page and details about the hyperlinks in the consecutive pages, etc.
2. Design and develop the School Library Blog using blogspot.com. Enter various Posts highlighting Students Information Bulletin, Important Universities' Admission details, hyperlinks, Album using Library and School Pictures, etc.

P. T. O.

3. Create five book records in the Koha-Integrated Library Software using default worksheet. Edit the default worksheet and search the records using keywords in OPAC. Create five borrower records using students, faculty and staff parameters settings and perform issue-return and verify in the OPAC.

4. Install and configure audio-video conferencing system on your computer. Using Skype create user account and connect with other users in video and message modes.

5. Select the parameters settings to add Library of Congress, BNB and any National Library websites having Z39.50 protocol in Liberty and Koha. Download five records in the library databases, complete local information in the records and search the records in OPAC.
