LIS (PRACTICAL)**

(Admissions of 2009 and onwards)

Time : 3 hours

Maximum Marks : 70

*(Write your Roll No. on the top immediately
on receipt of this question paper.)*

Attempt all questions.

All questions carry equal marks.

1. Design a Public Library Website using open source tools, incorporate multimedia and about the Library, Main Information Services hyperlinks options in the Home Page and details about the hyperlinks in the consecutive pages.
2. Create a Word file indicating various Wikis functions. Add some details and save in the existing article, create new article in Wikipaedia and show to the examiner.
3. Create Special Library Digital Collection using

P. T. O.

Greenstone Digital Library Software. Provide multiple search options on various metadata, display records having cover page, contents and text of the given five records.

4. Install and configure audio-video conferencing system on your computer. Using Oovoo a teleconferencing software create user account and connect with other users in video and message modes.
5. Search at least two library websites having Federated Search options and save the consecutive federated search screens in a word file. Perform Federated Search using different field selections and display the records on the screen.
